NEW TITLES ADDED!**

565 video titles have recently been added to the SAFARI Montage K-8 Core Content Package (2011), which now includes 2311 pre-selected, pre-loaded titles that are fully segmented and searchable. The titles in this package come from the most highly acclaimed publishers, such as A&E Home Video, Ambrose Video, BBC, Disney Educational Productions, National Geographic, PBS, Scholastic, Weston Woods and others, in addition to the award-winning programs from Schlessinger Media (see reverse side). Each title is correlated to current state standards and includes extensive, standardized metadata, which ensures that teachers can find exactly the clips they need. All video titles have been segmented into chapters and key concepts, and many include a quiz. Schlessinger Media titles also include closed-captioning, a teacher guide and a Spanish language track.

These stellar educational resources, together with the dozens of tools included in the SAFARI Montage interface and our exclusive SAFARI Montage Media Player, allow educators to see the true value and impact that multimedia can have on today's students.
