

SAFARI MONTAGE™

PAIUnet continues to bring SAFARI Montage to Pennsylvania Public Schools!

Access the Best in Educational Digital Content – High Quality Video With No Server Needed

Since July 1, 2010, all K-12 public schools in Pennsylvania connected to PAIUnet have had access to the SAFARI Montage® Video-On-Demand and Digital Media Management system over the PAIUnet high-speed network. This has allowed their teachers to seamlessly integrate rich video and images into their curriculum to increase student engagement and retention. Through PAIUnet, SAFARI Montage includes all of the finest curriculum-correlated video content available on the system from publishers such as Schlessinger Media, PBS, The History Channel, National Geographic, Scholastic, Disney Education, BBC and more. The service is available to all Pennsylvania public school districts via PAIUnet without the need for a local server in the schools. Pricing for the school year 2011–12 has now been established and included here.

For more information about integrating this service with other SAFARI Montage products, contact:

Features and benefits included with the SAFARI Montage® Video-On-Demand and Digital Media Management system through the PAIUnet:

High-Quality Licensed Content

- Selected from the finest educational publishers and aligned to Pennsylvania Standards
- Each program is hand-picked by SAFARI Montage's editorial staff for its direct application to the curriculum
- Superior video quality that is effective on both small and large displays
- Each title comes with rich meta-data — grade range, running time, publisher, abstract, copyright date
- Segmented and fully searchable by segment
- Teachers can create their own bookmarks — indicate start and stop points within a segment
- Most video titles are closed-captioned
- System includes over 1,800 K-8 videos titles or 1,900+ 9-12 video titles, 15,140 still images for K-12, 570 video clips for career guidance (Grades 7-12) and 12 hours of video content from the National Underground Railroad Freedom Center (Grades 7 & up)

Instructional Materials

- Teacher's Guides included
- Use the provided quizzes or create your own
- Integration with SMART®, Promethean®, Hitachi® and elstruction® interactive whiteboards (other interactive whiteboards supported)
- Correlations to all current academic standards for Pennsylvania, including Common Core Standards for both Math and English Language Arts (ELA), are provided for all programs.

SAFARI Montage Media Player (free plug-in)

- Developed to enhance the multimedia experience specifically in the classroom.
- Turn closed-captioning on and off as the video plays
- Switch from English to Spanish language tracks during play of Schlessinger Media programs
- Variable speed playback features allows you to speed up the video/ audio playback for easy teacher previewing and slow playback for special needs students and English Language Learners
- Integrate with desktop/laptop web cameras or document cameras

Creating Playlists

- Organize a sequence of video segments and documents for convenient playback to create one multimedia lesson plan
- Ability to share playlists throughout the school
- Users can organize their playlists into folders

System Administration and Network Management

- Does not require local servers
- Supports LDAP usernames and passwords
- Districts can easily manage all of their schools with one interface from any location
- Provides Digital Rights Management

Add any of these powerful integrated SAFARI Montage software modules: (Requires local server installation at your district and purchase)

- CreationStation™
Upload & meta-tag content, and apply digital rights management.
- NEW!** • Digital Curriculum Presenter™
New teaching tool that provides a platform for teachers to present a complete digital curriculum.
- NEW!** • Face-to-Face™
Makes person-to-person IP video calls available to teachers conveniently within the familiar SAFARI Montage interface.
- Managed Home Access
Connects teachers, students and parents to the district's content from home.
- Pathways SM™
Pathways SM is an integrated module designed to control, manage and schedule classroom and district devices, including projectors, document cameras, DVD players and digital cameras.
- SAFARI Montage Live!
School districts can enable their educators to connect and collaborate with colleagues and students.
- Selective Video Streaming
Manages multimedia content delivery to the classroom from cable TV, video cameras and the Internet.
- WAN Manager
Controls the storage, delivery, access and Digital Rights Management of all of the district's media.
