Welcome to SAFARI Montage!
Thank you for choosing the SAFARI Montage. In just a few steps, you’ll have access to your school or district’s SAFARI Montage solutions – from anywhere on your network.

PLEASE READ THESE INSTRUCTIONS IN THEIR ENTIRETY BEFORE YOU BEGIN:

- Review any questions with Technical Support in advance. Please note that SAFARI Montage Technical Support is available Monday – Friday from 8 a.m. to 6 p.m. Eastern Time and they may be contacted by telephone at 800-782-7230 or online via http://www.safarimontage.com/support.

This setup guide covers the following SAFARI Montage server models:
Step 1 – Unpack Hardware
Carefully remove the SAFARI Montage server and the following items from the box and place them on a flat surface. If you are missing any of the items below, please call 1-800-843-4549.

*OS and Content hard drives shipped separate from the server.

Step 2 – Install the SAFARI Montage Server
Install the server in the rack mount enclosure, using the supplied mounting brackets or rails and screws. There should be adequate airflow around the server to prevent overheating.

Step 3 – Connect the SAFARI Montage Server
a. Using the image below as a guide, connect the server to the network by plugging an Ethernet cable into an active Ethernet port on your network.
b. Connect a monitor and keyboard to the server.
c. Connect the power cord(s) from the back of the server into your UPS.

NOTE: Please see your hardware warranty for terms related to your server’s environmental conditions and electrical power.

Step 4 – Hard Disk Drive Installation
Using the diagram and tables below, insert the received drives in the appropriate drive bays of the corresponding server model. Be sure the sled latch clicks into place, ensuring proper drive seating.

Step 5 – Power on the SAFARI Montage Server
Once all cables have been connected, turn on the server by pressing the power button located on the front of the server.

Note: If at any time during the boot process the server returns a configuration error or fails to boot to the console, please contact Technical Support.

Once the server’s boot sequence has completed, the SAFARI Montage console menu will appear.

Step 6 – Configure Network Settings
Access the SAFARI Montage console via the monitor and keyboard connected in Step 3 to confirm or configure the server network settings.

1. Choose Option 1, “Network Settings…”

2. Choose Option 2, “Network Cards (IP Address)…”
3. Choose the option number associated with the connected network card (NIC) you wish to configure.

4. Choose Option 1, “Static IP Address” and follow the prompts to assign static IP address and related network settings to your SAFARI Montage server.

**NOTE:**
- The Static IP address assigned to the server must not be in use by any other device on your network.
- Option 2, “DHCP”, may alternatively be selected temporarily during installation to configure the server to acquire network settings automatically from a local DHCP server.

5. Once configured, press ‘r’ and enter to reboot the server for the changes to take effect.

**Step 7 – Access the SAFARI Montage User Interface**

Launch a web browser and enter the URL for your SAFARI Montage server into the address bar. Obtain this URL from your Network Administrator if necessary.

Log in as Administrator by using the default administrative account, and click on “Log in”:

Username: admin  Password: admin

We recommend that you change your administrative account password after the initial sign on.
Congratulations!
You have completed the basic installation.

Your server licensing has been pre-activated and is ready to access.

Now that you are logged in, a great place to get started is with the interactive Video Tutorials, User’s Guide, and the Administrator’s Guide accessible through the SAFARI Montage “Help” section, and on the Support section of www.SAFARIMontage.com.

Troubleshooting
If you have any difficulties with the installation or need further information, please visit www.SAFARIMontage.com/support or call a support representative at 800-782-7230. When calling, please have your server’s serial number available. Your serial number can be found in the Help > About section of the SAFARI Montage application and on the back of your server.

Additional Content
If you are interested in purchasing additional SAFARI Montage products or digital content packages, please visit www.SAFARIMontage.com or contact your Account Executive.
